year (including federal holidays).

Copies of the submission(s) may be obtained by calling 703-292-7556.

SUPPLEMENTARY INFORMATION:

NSF may not conduct or sponsor a collection of information unless the

collection of information displays a currently valid OMB control number and the

agency informs potential persons who are to respond to the collection of

information that such persons are not required to respond to the collection of

information unless it displays a currently valid OMB control number.

Comments regarding (a) whether the collection of information is necessary for

the proper performance of the functions of the agency, including whether the

information will have practical utility; (b) the accuracy of the agency's estimate of

burden including the validity of the methodology and assumptions used; (c) ways

to enhance the quality, utility and clarity of the information to be collected; (d)

ways to minimize the burden of the collection of information on those who are to

respond, including through the use of appropriate automated, electronic,

mechanical, or other technological collection techniques or other forms of

information technology should be addressed to the points of contact in the FOR

FURTHER INFORMATION CONTACT section.

Title of Collection: Grantee Reporting Requirements for the Research

Experiences for Undergraduates (REU) Program

OMB Number: 3145-0224

2

Type of Request: Intent to seek approval extend, with revisions, an information collection.

Abstract:

Overview of this information collection:

The Research Experiences for Undergraduates (REU) Reporting Module is a component of the NSF Project Reports System that is designed to gather information about students participating in REU Sites and Supplements projects. All NSF Principal Investigators are required to submit annual and final project reports through Research.gov. If NSF cannot collect information about undergraduate participants in undergraduate research experiences, NSF will have no other means to consistently document the number and diversity of participants, types of participant involvement in the research, and types of institutions represented by the participants.

NSF is committed to providing program stakeholders with formation regarding the expenditure of taxpayer funds on these types of activities, which provide authentic research experiences and related training for postsecondary students in STEM fields.

Background:

All NSF Principal Investigators are required to use the project reporting functionality in Research.gov to report on progress, accomplishments, participants, and activities annually and at the conclusion of their project.

Information from annual and final reports provides yearly updates on project inputs, activities, and outcomes for agency reporting purposes. If project

participants include undergraduate students supported by the Research

Experiences for Undergraduates (REU) Sites Program or by an REU

Supplement, then the Principal Investigator and his or her students are required

to complete the REU Reporting Module.

Respondents: Individuals (Principal Investigators and REU undergraduate

student participants).

Number of Principal Investigator Respondents: 2,300

Burden on the Public: 383 total hours

Dated: February 7, 2019.

Suzanne H. Plimpton,

Reports Clearance Officer,

National Science Foundation.
